Dear Kevin:

It is my pleasure to inform you that [NAME OF ORGANIZATION/BUSINESS] supports efforts to increase the recycling of beverage containers including the Georgia Beverage Association's Made to be Remade initiative.

We commend the initiative's efforts to reclaim beverage containers so they can be remade into new beverage containers and not end up as waste in on our oceans, waterways, beaches or landfills.

Through raising awareness on the importance of recycling, supporting recycling efforts and investing in recycling infrastructure and programs across Georgia, we continue to improve the collection of cans and plastic bottles and increase the amount of recycled materials available to be remade into new beverage containers.

You can use our name in any printed materials or information to show our support of efforts to improve the recycling of beverage containers and the Georgia Made to be Remade initiative. We will urge our members and colleagues to support the initiative to ensure that beverage containers do not end up in our oceans, waterways, beaches or landfills.

Sincerely,
